About our company

Bass-Mint Management provides unique access to the World's International Trade.

As an International Trade Company, Bass-Mint Management offers qualified buyers a direct, reliable and competitively priced, global source for Petroleum Products (D2 & JP54) and also provides Trading Program/PPP with Bank Instruments for potential qualified Investors via MT760.

WHAT WE DO: Our firm provides creative sourcing solutions and delivers premium products for International Institutions. We work very hard to locate the best sellers and buyers and create good business relationships. Bass-Mint Management is an exciting young international trading company based in Montreal, Canada which acts as a Provider or Seller and some case as a Mandate in supplying a variety of commodities to established Buyers, Clients and Investors in the Commodity Industry. And we do have a major Platform in Switzerland that is an active participant in buy & sell opportunities for Trading Program (PPP) with Bank Instruments like BG, CD, MTN, BANK DRAFTS, SKR and BONDS.

1. Introduction

Bass-Mint Management was first established in Montreal, Canada under the name of BASS-MINT ENTERTAINMENT in 1997. The principal of BASS-MINT MANAGEMENT, Mr. Carl-Edward OSIAS started his business career as a DJ & Concert Promoter in 1987. Capitalizing on the International contacts and relationships developed in this field, Mr. OSIAS Established Bass-Mint Management an **International Trade** and **Entertainment Company**, now owned and coordinated through extensive family and friend's connections.

Bass-Mint Management commenced International Trade facilitation in 2007 as a agent for established commodities organizations and high net worth individuals. Since its inception, the company has acted as an Intermediary, a Facilitator and a Mandate for Buyers & Sellers in the Petroleum, Industrial, and Agricultural Commodity arenas. During the last five (5) years the structure and strategies initiated by the Company have varied by transaction. During this period, Bass-Mint Management has established mutually beneficial relationships with international buyers, sellers and producers in the **International Trade Business** across the Globe. Today with its dynamic, experienced, and well-educated staff, Bass-Mint Management is working as reliable buyer, supplier, logistics advisor, and on time delivery provider for **International Trade** transactions. Rapid fulfillment and complete contract supply management has been the priority of the company.

For reasons of confidentiality and security for the principal members of the Joint Venture partnership, Mr. OSIAS has been elected the Chief Principal Officer of the Joint Venture for all Petroleum, Copper Powder, Stock and Bank Instruments transactions undertaken by the partnership.

We have trade links with the importers, exporters, distributors, traders and wholesalers all around the world and it is most likely that we can supply any product or commodity provided it is a substantial and ongoing business.

Bass-Mint Management is committed to providing the highest levels of quality and service to its clients, whilst at the same time maintaining a friendly and personal service on which our Company is based.

We are also very confident that you will find that our prices and our ability to guarantee continuity of supply are first class. We would look forward to the opportunity to be of service to you in the near future.

2. Mutual interests

We are confident that we can establish the best possible deals for any Buyer. A bold saying but based on our knowledge and experience, and the fact we have good entrances and working relationships with the Major Russian Oil Companies, we are confident in our claim.

We have had several meetings with our Russian partners to discuss what could be available as allocations of Russian crude oil for our clients and other petroleum products. We, as authorised agents for the two major Russian oil companies on the one side and between the Buyers at the other side, can create a working and business relationship which will benefit all parties involved.

In conjunction with our JV Partners Moscow office, our staff will introduce, guide and support the Buyer through all new contacts with the two Major oil Companies. Combining the knowledge and negotiating power of our JV Partners Moscow staff with our experience and expertise, assessments of the end Buyer will make any deal an instant success.

Appendix B

Petroleum Products - Procedures

Procedures:

Please note our non-negotiable procedure for processing Orders for Petroleum Products (D2, JP54), CIF AWSP, Russian Origin:

1. Buyer sends (Irrevocable Corporate Purchase Order) **ICPO + BCL**, or (Letter of Intent) **LOI + BCL** address to Seller, upon receipt Seller sends **FCO**, Buyer sign **FCO** and return within **24-72hours**. After seller proper due diligence seller sends Contract, Buyer sign Contract and return within **24-72hours**, Buyer and Seller lodge copies of Signed Contract with Respective Banks.
2. Immediately after Buyer sends **Swift MT760** for one month value to seller's bank. (For those that claim that it cannot be sent, are requested to use their European correspondent bank, and further, if still not wanting to do a swift, they are requested not to move forward).

***(PLEASE NOTE THIS IS RESERVING/BLOCKING OF FUNDS IN BUYERS ACCOUNT AND DOES NOT ENTAIL TRANSFERRING TO SELLER ACCOUNT)**

**** (IMPORTANT: NOTHING will be shown until we see FUNDING capability... Any request for POP upfront will see the immediate termination of such FCO and contract, as POP will be the result of administrative & financial process.)**

3. On receipt of **SWIFT MT 760**, the Seller within 5 (five) banking days, will send **2% Performance Bond** (returnable to the Seller after completion of contract).
4. The Buyer acknowledges receipt of the Performance Bond to the Seller by email.
5. The Seller on receiving the acknowledgement from the Buyer, will send the **Full Refinery Verifiable Proof of Product (POP) for the PER ANNUM SUPPLY**, within 5 banking days **to the Buyer's Bank by MT799**.
6. **The Buyer's Bank will verify (within 5 banking days) the refinery Proof of Product (POP) for the per annum supply, and after Satisfaction will send out the fully operative RDLC or SBLC. Please Note:** The Bank used by the buyer MUST be a "AA" or higher rated prime bank. Top 25 Western Bank is preferred.

The POP will consists of the following:

- i. Copy of license to export, issued by the ministry of energy.
- ii. Copy of approval to export, issued by the ministry of justice.
- iii. Copy of statement of availability of the product
- iv. Copy of the refinery commitment to produce the product.
- v. Copy of Trans-neft contract to transport the Product to the Port storage tank(s).
- vi. Copy of the Port Storage agreement.
- vii. Copy of surveyor's certification of quality and quantity at loading port.

Delivery commences as per contract 30 -45 days after authentication of Swift & authentication of the RDLC or SBLC.

***All products are Russian origin, CIF, ASWP, Seller charter vessels and the charter agreement will include endorsement stating and including Buyer's name with assigned quantities. Seller loads the cargo and gets ready with all documentation. Payment will be effected based on the surveyor's certification of quality and quantity

IMPORTANT: Please note that our procedures are those of the Refinery and are not negotiable or/and not open to any unreasonable negotiation.

GASOLINE accounts for roughly 44 percent of all refinery products. Gasoline is not a single hydrocarbon, but may be a blend of several. In areas with air quality problems, ethanol or other additives may be added to gasoline to reduce emissions. (Ethanol is a bio-fuel that adds oxygen to gasoline - making it an "oxygenate" - so that it burns with fewer emissions) Gasoline also can occur naturally within crude oil, although this product is more unstable and volatile than refined gasoline.

Commercial burners. Low-grade heating oil is used in industrial and commercial burners. JET FUEL, also called aviation gasoline, is kerosene blended to specifications for general and military aircraft. These specifications include a low freezing point (to keep fuel flowing at high altitudes), low combustibility (to help make handling safer and airplane crashes more survivable) and high energy content with low weight (to allow planes to gain and hold altitude).

JET FUEL accounts for 9 percent of refinery products. HEAVY FUEL OIL, also known as residual fuel oil or "resid," is used primarily for power, heat and electricity generation.

LIQUIFIED PETROLEUM GASES (LPGS) are gases refined from crude oil or natural gas, liquefied under pressure for easy transportation. The term includes ethane, ethylene, propane, propylene, butane, butylenes, isobutane and isobutylene. LPGs account for 4 percent of refinery products The remaining 17 percent of crude oil products Are a wide variety of gases, liquids and semi-solids. Among the more common products, still gas, also Known as refinery gas, is a generic term for any gas produced by refining crude oil. Still gases include Methane, ethane, butane and propane.

Although Containing the same constituent elements as LPGs, still gas is used to fuel refineries and as a chemical feedstock. ROAD OIL is any heavy petroleum Oil used to stabilize paved roads. Asphalt is a Thick tar used to pave roads and to make roofing Materials and floor coverings. The heaviest product, PETROLEUM COKE, is almost Pure carbon and is the product that remains after All other hydrocarbons have been removed. Coke With low sulphur content is used as fuel for industries And power plants. Coke with high sulphur Content is used as a catalyst in refi neries.

Private Placement Program (PPP)

Specifications + Procedures:

We have a major Platforms that controls several private placement programs. Our resource offers qualified investors with assets of 100M or more an opportunity to participate in several private placement opportunities. Our asset manager who has registered traders in key money centers around the world can execute on behalf of his clients various trade programs that offers returns that can only be understood by investors who are privy and knowledgeable about the working of these transactions. This opportunity offers zero risk to clients or investors funds that remains in clients account and never leaves owners control.

Our Platform in Switzerland is an active participant in buy sell opportunities and is as an active cutting house for these bank debentures. We do not offer extensive public information on these programs as they are indeed private and cannot be solicited.

We have active programs that clients can get up and running in as little as 10 days. We do not believe in hype but actual performance history of our Platform.

Procedures: Clients submits a complete compliance package with proof of his funds. Funds can be CASH, financial instruments such as MTN, BG, CD, BANK DRAFTS, SKR and BONDS. After the Platform or Asset Manger reviews and does satisfactory compliance on client and his docs, he will offer a contract with the exact returns for review and execution. AS YOU CAN SEE IN THE BELOW 7 POINTS, IT IS NOT COMPLICATE TO WORK WITH US:

- 1) The applicant (Client or Investor) contact us and after we have agreed he will send his POF with his full Compliance Package address to the Platform in Switzerland.
- 2) Upon acceptance of the package... Next day Investor will give the order to his bank for sending a PRE-ADVICE to our Platform by FAX & Email (No need for MT799, or MT199, or MT999).
- 3) We prepare and sign the final Private Joint Venture Agreement with the Applicant.
- 4) Investor print, sign, scan and send it back in PDF file.
- 5) At the proper time (within 3-5 business days before the starting date of the PPP), the Platform reply with an appendix with the receiving/trading bank details. And within 24-48hrs the Investor's bank send the agreed SWIFT MT760 to our trading bank.
- 6) We receive the credit line from our bank and the trade will start.
- 7) Every Friday the profit and the fees are paid to the nominated accounts.

And to provide the clients a proposal that matches their individual ideas as closely as possible we need the following documents:

Applicants or Clients have to submit the appropriate documentation:

- A. Pre-Advice from bank institution of the applicant by **FAX & EMAIL** address to the platform/asset manager.
- B. Client Information Sheet (CIS/KYC).
- C. Color Copy of Passport.
- D. Proof of Funds (POF) – Tear sheet, Bank Statement signed by Two (2) Bank Officers (not older than 3 days).
- E. Copy of Banking Instrument.
- F. History of Asset/Instrument/Cash Funds.
- G. Account Statement (not older than 3 days).
- H. Authorization to Verify Cash Funds or Assets.
- I. POA (Power of Attorney).
- J. Letter of exclusivity.

Disclaimer: *We are not a United States Securities Dealer, NFA/CFTC Member, or United States Investment Advisor. About PPP:

What is a Private Placement Program (PPP) also called Programs Buy/Sell or Programs Commonly Know by High Yield or Trading Program ?

Private placement trading programs usually involves trading with medium term bank notes (MTNs) or Treasury Bills called T-Bills.

PPP refers specifically to private placement trading programs with a high return on the investment associated with humanitarian project funding programs or Fed programs as compared to capital enhancement programs.

These programs provide the traders with fresh issues of MTNs or T-Bills that produce high profit margins. This is known as the first tier. In the commercial world this would be called the B2B wholesale market. Now we all know that end users usually do not have access to the prices offered in the wholesale market, so they buy goods in the convenience store and not direct from the producer.

Most of the time these programs require the investors to use a portion of their earnings for projects of humanitarian, social, or economic development in nature to make sure that part of these Profits are put back into the economy.

Even after deducting the portion of earnings to be used for projects, the investor is still left with a very substantial profit for their own investments.

Performing PPP programs are difficult to find and are not always available. Only a very restricted number of high-level traders can get access to these type of programs.

Many capable investors have been looking around for PPPs for years and are unable to find a performing provider. Often they have wasted large sums of money by sending MT760's to banks and so called traders that simply cannot perform.

Genuine programs are without risk to the investor what so ever, as the credit line raised against the capital is underwritten by the trading group. The (Investor) therefore is involved for the purpose of audit only, as it is by law that Financial institutions are not allowed to participate and therefore have to find a Private entity either a private person or company. At no time are the investor's or better called Audit Fund Provider's funds used for the trade.

The procedures to enter are simple and fairly standard, however the Audit Fund Provider will have to adhere to strict compliance and non-disclosure. Many claim to be next to traders, this is 99.99% not the case. Traders are very busy people and have no time to sit down and have a chat. Therefore they have a structure in place where the first contact is with a compliance officer who will go through the submission papers and sort out the good from the nonsense.

Only a very limited number of high-level traders can execute such programs. Traders - very busy people and have no opportunity to negotiate with the huge number of brokers and owners are often of dubious financial assets. Therefore, they have the structure (compliance officer of the platform), which will study and conduct verification of the proposed papers.

BASS-MINT MANAGEMENT

(7574002 Canada Inc.)

Mr. Carl-Edward OSIAS (President & CEO), 5056 Cote-Des-Neiges suite 204, Montreal, QC, H3V-1J6, CANADA.

Tel : +(438)402.3656, Fax : +(514)253.9414, e-mail : ceo@bassmintmanagement.com,

Website: www.bassmintmanagement.com,

SKYPE : BassMint.Impot.Export

Authentic Private Placement Program without risk, designed exclusively for private investors (companies or individuals), high-level, according to the law financial institutions (banks, financial funds, etc.) are not allowed to participate in the PPP. Trader consolidates the assets of private companies and individuals for use in financial transactions, bringing high profits.

The procedures to enter the trade are simple and fairly standard, but the Control Provider Fund (Audit Fund Provider) will have to adhere to a strict agreement of all parties and non-disclosure.

We have the ability and capacity to provide the investors with high profits through entry into the secure, private placement programs in direct cooperation with the managers of the platform and traders FED USA, as well as a number of banking service providers in Europe. It is a long-term (40 weeks) or short-term programs or FED Banking Trade (Banking Trading), by using your bank instruments of foreign banks with a rating of AAA (Via MT760), as well as Depotschein/CD or SKR of ultrafine copper powders (PG) - Copper (powder), placed on deposit in banks or Security House.

PPP contracts provided a high equity capital and / or the possibility of obtaining additional major trader credits for use in financial transactions in order to maximize revenue. Your investments remain under your control and direction in your account, guaranteed for the period of the contract.

If the investors have an opportunity and a desire to place funds in a private placement programs (PPP), we can help. In a short time - two weeks after checking the documents received and due diligence process, the investors will receive a contract via email, or/and an invitation, which will be assigned a date and place of signing a contract with our platform in Switzerland. Under existing rules, the platform manager is negotiating exclusively with the investors, the transfer of assets in the management to the middlemen is prohibited. The contract between the platform and the investor is confidential, however, this does not exclude participation in the discussion and signing of qualified, experienced lawyer. An investor should act with caution and should not try to save money on the services of the lawyer and the financial adviser, remember the proverb that "**Free cheese is only in a mousetrap**". Investors should also take all measures to further block their assets, to prevent unauthorized access by outsiders.

In the market of PPP as an investor, you cannot lose your assets and capital. In history there was no case of loss of capital and assets of investors. This process is completely safe, and could not cause any financial loss to you: your financial assets will never be moved to other accounts, only if the Bank Investor has Swift opportunities. Your funds will be blocked by your bank standard via SWIFT MT760 (in some cases quite SWIFT MT700), or by direct interaction between the trader's bank with the investor bank or Security House for a limited period, in strict accordance with the signed contract.

List of banking or/and financial instruments used in PPP (via MT760):

1. Cash (Proof of funds - statement of account).
2. Bank Guarantee (Banking Guarantee - BG).
3. Certificate of Deposit (Certificate of Deposit - CD).
4. Bank bonds (Medium Term Note - MTN)
5. Bank deposit receipt (Safekeeping Receipt - SKR).
6. Banking bill (Banking Bill).

BASS-MINT MANAGEMENT

(7574002 Canada Inc.)

Mr. Carl-Edward OSIAS (President & CEO), 5056 Cote-Des-Neiges suite 204, Montreal, QC, H3V-1J6, CANADA.

SKYPE : BassMint.Impot.Export

7. Corporate bill accepted by Bank (Promissory Note - PN)

8. Depotschein / Certificate of Deposit Security House or SKR of bank, which is based on ultrafine copper powder (PG)-Copper (powder) Isotopic fractions CU 63/CU65 Cu 63 = 69,1%, Cu 65 = 30.9 or/and High Purity Powder Copper pure at 99.998%, deposited in the Security House, or the bank.

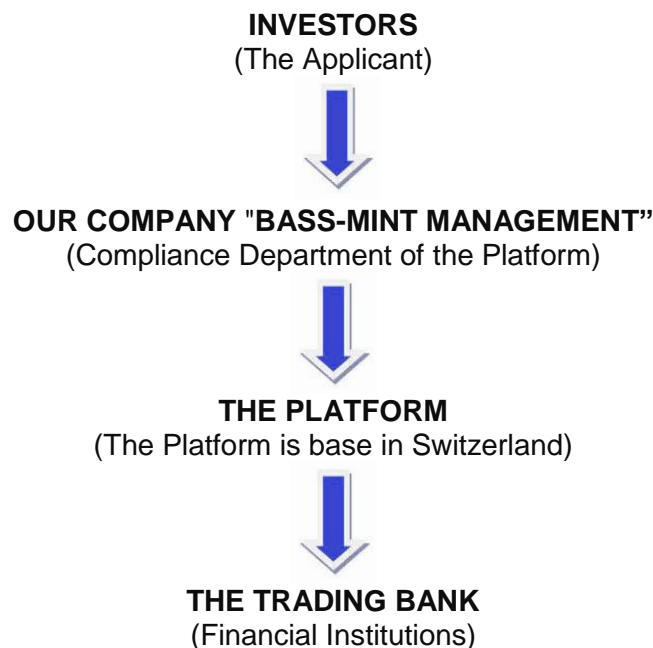

The issuing bank should not be a resident of a country within the compiled International Group on Anti-Money Laundering (FATF) "blacklist" of countries that are not cooperating in the fight against money laundering and terrorist financing (Myanmar, Nauru, Nigeria). Indonesia, the Philippines and the Cook Islands are excluded from the list, but more attention to them remains.

Bank instruments to be issued in the international format, according to ICC 500, ICC 600 (Available - ICC 400), must be verifiable bank-to-bank by SWIFT MT760 format, or deposited into an international clearing systems (Euroclear, FED Screen, etc.) that also allow for their verification.

No intermediaries are acceptable on this type PPP of operations

(For two main reasons #1: To many confidential documents involves and we don't want to take any risk, all the files we receive are treated as strictly private and confidential. #2: We don't want any misunderstanding or bad communication.)

The Structure of business protocol can only be as follow:

The Rules of the Road for PPP/Trading Program:

- 1) None of the customary standards and practices that apply to conventional business, investing and finance applies to our marketplace.
- 2) Personal financial and business success has virtually nothing to do with who you are and what you think you know, but almost everything to do with who you are and how you conduct yourself.
- 3) It is a privilege to be invited to participate in one of our Private Placement programs. It is not a "right." These programs deliver unparalleled yields in combination with absolutely no program-related risk. The trading administrators and managers have a virtually endless supply of financially qualified applicants. All things considered, the trading banks will favour the applicant with the best background, the best attitude and the best paperwork.
- 4) An applicant should never underestimate what the trading entities know about him. Failure to provide full disclosure will summarily disqualify the disingenuous.
- 5) Generally, the programs exist to finance humanitarian projects, not to generate more money for the wealthy. Clients who have projects usually receive preferred treatment and the highest yields.
- 6) Clients must first prove that they are qualified, not the other way around. Until the platform or traders and trading banks accept the client, nothing shall happen.
- 7) Sometime face-to-face interviews with compliance officers and program management are often required (upon request of the Platform only). An arrogant or demanding personality will guarantee rejection.
- 8) Only the principal owner of funds is considered as signatory. Corporations must empower an existing officer or director as sole and exclusive signatory (also exclusive signatory on the bank account in which the funds reside), by Corporate Resolution.
- 9) Not only do the funds have to be on deposit in a top bank; the bank must be in an acceptable western jurisdiction. If not, the funds have to be moved to such a jurisdiction or a suitable bank in an acceptable venue must guarantee them with full responsibility.
- 10) It is felony fraud to submit documents or financial instruments that have been forged, altered or counterfeited. Such papers are immediately referred to the appropriate law enforcement bodies for immediate criminal prosecution
- 11) The practices, procedures and rules are determined by the Federal Reserve USA, program management or platform, licensed traders and trading banks. It is their decision as to whom to accept and whom to reject. Contract terms, yields, schedules, etc., are made to fit their needs and schedules and not the caprices or demands of the candidate.
- 12) This marketplace is strictly confidential, and absolute confidentiality is a key element of virtually every contract. A client who breaks confidentiality will precipitate instant cancellation of his contract, often with severe financial consequences.
- 13) Submission of application documents to more than one management group at a time is termed, "shopping." If a prospect "shops," he can expect that this fact shall be quickly disseminated among management groups who maintain close communication, and he shall be accepted by none - rejected by all ("black listed")
